Drug Medi-Cal Organized Delivery System
Process for Out-of-County clients – BHS 2018-009

July 30, 2018

To receive DMC-ODS services in San Diego County, DMC beneficiary must have Medi-Cal San Diego.

Individuals who have out-of-county Medi-Cal (justice-related or not) but who claim intent to reside in San Diego, and are going to change their Medi-Cal to San Diego, shall be admitted and served while the Program assists them with changing their Medi-Cal.

The client’s provider enrollment group should be DMC, and Program should enter services as DMC-billable. Program should not release to bill until the Medi-Cal eligibility is changed to San Diego. Only at the time the client’s Medi-Cal eligibility is changed to San Diego should the Program then release all the services-to-date to bill.

At this time, the County is seeking clarification if DHCS will deny any services that fall into the time period when a client’s Medi-Cal was not San Diego. However, if Program does get denials for this reason, the Program should go back into SanWITS and change these units to County-billable (since Provider has done their due diligence and worked to get the client’s Medi-Cal changed).

Feel free to refer to the diagram on the next page for reference.
