Update: System of Care Application (SOC) - Registration
- The SOC Application is a web application designed as a one-stop shop for providers to access and submit all documentation required by the Medicaid and Children's Health Insurance Plan (CHIP) Managed Care Final Rules, also known as the Mega-Regs.
- The SOC Application will also be used to view, verify, and update your program’s Network Adequacy Certification Tool (NACT) data and Provider Directory information.
- Having one portal to manage all Mega-Reg requirements will streamline workflow and enhance accuracy of the submitted information. It will also reduce administrative burden and redundancy by combining several separate submissions into one system.
- Program managers and service providers must first register through Optum in order to access the SOC Application.
- To register: visit www.OptumSanDiego.com and click on the “Register” link on the upper right corner of the webpage.
- To access a Registration Tip Sheet: visit the BHS Provider Resources page at www.OptumSanDiego.com and click on the “Optum San Diego Registration Tip Sheet” link towards the bottom of the page. You may also click here to access the tip sheet directly.
- Once registration is approved by the Optum Support desk, you will be able to access your profile and site attestation. Profile and site attestations should be completed via the SOC application now, and again prior to the next NACT submission due April 2021.
- A memo regarding the SOC Application with additional details was emailed to BHS providers on 11/23/2020. It has also been posted to www.OptumSanDiego.com under the “Communications” tab. You may also click here to access the memo directly.
- If you have any questions regarding registration, login, or the SOC Application, please reach out to the Optum Support Desk at 800-834-3792, Option 2, or email sdhelpdesk@optum.com.
Reminder: Services Rendered after CalOMS Discharge Date
- Due to CalOMS rules that require the discharge to be backdated to the last face to face or phone contact with the client, there can be services rendered that appear to be after the discharge date.
- Historically the post-discharge services were considered not billable or disallowed.
- Effective immediately, these services should be billed as long as these services meet the clinical standards for billing.
- The TCS program enrollment should be used to bill these services.
- For more information on TCS, please review the TCS Memo and the Provider Services Guide.

Reminder: Required Trainings
- Reminder that Relapse Prevention, Motivational Interviewing, and Case Management trainings are not required annually.
- Please avoid retaking trainings annually, as this is preventing others from taking these trainings to meet their own training requirements.
- See the DMC Required Trainings page for more information about which trainings are frequency requirements, due dates, and where to find trainings.
- Additional trainings are located here.
