Update: Additional Guidance from DHCS regarding Physical Examination Requirements

- DHCS was asked if it would consider a goal of “MD reviewing/signing the physical exam results” as meeting the physical exam requirement, if it was noted elsewhere on the treatment plan that a physical exam had been completed within 12 months of admission.
- DHCS responded “No,” this would **not** meet the physical exam requirements. Therefore, a specific goal to obtain a physical examination must be on the initial and updated treatments plan until physical exam results are in the client chart and have been reviewed by the program physician, **and** “the physician has typed/legibly printed their name, signed and dated documentation to support they have reviewed the physical examination results (with signature adjacent to the typed or legibly printed name.)”
- Stated another way, a goal that only addresses obtaining physical exam results or reviewing physical exam results will not be in compliance. The initial and updated treatment plan goal must be to obtain a physical examination and should remain on the treatment plan until the physical examination results have been received and the physician has reviewed them and signed documentation of the review as described above.
- Once the physician has reviewed the exam results to substantiate that the physical exam has been completed within the last 12 months, and has signed off on his/her review of the results as described above, the goal to obtain a physical exam can then be marked as resolved on the treatment plan.
- Monitoring to this updated guidance will begin March 1, 2020 and will apply to documentation completed on or after that date.

Reminder: Network Adequacy Requirements by the “Mega Regs”

- Per the Medicaid Managed Care Final Rule (Mega Regs), DMC-ODS pilot counties must complete the Network Adequacy Certification Tool (NACT) for all providers at the organizational (Exhibit A-1), site (Exhibit A-2) and rendering provider (Exhibit A-3) level.
- For more information on this requirement, please see the Mental Health and Substance Use Disorder Services (MHSUDS) Information Notice (IN) that was issued to address the federal network adequacy requirements at the following link: [Information Notice 18-011](#).
- Email correspondences regarding the NACT were disseminated to program managers earlier this month.
- All programs must verify the information provided in the NACT, make corrections if needed, and **add** any missing information.
- The deadline to submit a completed NACT to BHSQIPIT.HHSA@sdcounty.ca.gov is Friday, **February 21, 2020**.
- If you need assistance or have any questions, contact the Optum Support Desk at sdhelpdesk@optum.com or 1-800-834-3792.

“Young Adult Expansion” Eligibility

- According to the new California law effective January 1, 2020, full scope Medi-Cal will be given to the young adult population, between the ages of 19 through 25 regardless of their immigration status
- Please note that the State has not updated their system yet for the expanded services and programs are expected to keep track of the clients’ age.

LTC (Long Term Care) Aid Codes

- LTC aid codes are restricted to NTP services only.
- Programs must clarify with the client if the Medi-Cal eligibility verification response showing the LTC aid code is correct.
- If the client is no longer at the LTC facility, the program should refer the client to Medi-Cal to have the aid code updated to a regular DMC eligible aid code. LTC aid codes billed to DMC will be denied.
