

Mental Health Services - Up To The Minute

General Updates

Home Medication Entry in SmartCare

- A new non-billable procedure code is available for use in SmartCare to add “home medications” to SmartCare – **Home Medications Note** – as of June 30, 2025
- The Home Medications Note is to be used by programs who do not have an RN or Prescriber with access to CalMHSA Rx
- Procedure code will have a “generic” template attached
- Treating providers should review clinical documents to determine if a Home Medication Note has been completed
 - Coordination of Care should occur when multiple providers are involved.
- For those who have access to CalMHSA Rx (RN & Prescribing Staff) – all medications should be entered via the CalMHSA Rx Module
 - Medications are visible to all with clinical access in the Psych/Med Note as well as visible via the Active Medications widget or within CalMHSA Rx

Multi Factor Authentication Updates for Cerner - DUO

DUO is a new multi-factor authentication (MFA) application that external users will utilize in order to maintain security when accessing Cerner applications. Affected user groups: any users that continue to access CCBH, which includes Next Steps and External Pharmacists. User accounts will be created within DUO; however, each user will need to activate their registration via the link provided in their targeted email. Users will then have the opportunity to decide how they would like to complete their multi-factor authentication: application, text, etc.

- The use of Duo will begin on July 14th
 - Additional details will be provided via email to affected user groups.
 - If there are any issues or questions following Go Live, please reach out to the **Cerner Help Desk** at 619-415-1141

New SMH Provider Type: Certified AOD Counselors- SMHS

Providers may notice that within the Specialty Mental Health Fee Schedule, rates are now included for Certified AOD Counselors following SPA 24-0042. There are outstanding issues to be addressed before this credential can be incorporated into SMHS Programs. BHS is currently awaiting guidance from DHCS to move forward with integrating this role into contracts and rate schedules moving forward. A formal communication was released **July 3, 2025**, addressing these issues. In the interim, the [County FY25/26 Rate Schedule](#) posted on Optum has been revised to remove the Certified AOD Counselor as a provider type until further direction can be provided. Programs should **hold** on adding Certified AOD Counselors as provider type at this time.

New SMH Provider Type: Enhanced Community Health Workers

A new benefit for Medi-Cal members—Enhanced Community Health Workers (CHWs)—has been added to the FY 2025–26 fee schedules and BHS Invoice/Budget documents. Additional guidance on this role, including requirements and implementation details, will be shared with providers soon. Programs should hold on adding or implementing E-CHW staff as a provider type until further guidance has been provided.

“Unable to Find Matching Rate” Service Errors

Currently, the CoSD Service Error Report is pulling the “unable to find matching rate” error associated with certain staff and procedures due to the FY 25/26 rates not being published in the SmartCare Live environment yet.

On 7/28/25, when the rates are published in SmartCare, the current errors seen in this report, which are associated with this issue, will be resolved. Communication email was distributed on 7/9/28

CPT Crosswalk Location

As mentioned in the June QIP Meeting, QA will no longer be putting out updates to the CPT Crosswalks. The crosswalk can be accessed on the CalMHSA Website at this link: [Procedure Code Definitions - 2023 CalMHSA](#) through the “Procedure Codes Definitions” hyperlink at the bottom of the page. This grid is updated periodically via this page, so please ensure that you are accessing this link directly each time you need to reference the definitions. Additionally, information on service codes including minimum/maximum times per unit, allowable disciplines, lockout codes, and other information for each code in the FY25-26 Specialty Mental Health Service Table [linked here](#) in the DHCS MedCCC site.

Medi-Cal Provider Portal Implementation Delayed – July Office Hours to be Provided

DHCS is moving the migration date of the Medi-Cal Provider Portal for Specialty Mental Health, Substance Use Disorder Health, Behavioral Health Providers and Non-Provider Users to **July 21, 2025**. Four more Open Office Hour sessions have been added in July to address questions.

- Use link [Upcoming Medi-Cal Provider Portal Office Hours for July 2025](#) to register for July Office Hours.
- Office Hours will be virtual via Microsoft Teams. Pre-enrollment on the Medi-Cal Learning Portal (MLP) is not required to participate in Office Hours.

QA Staffing Updates:

Please join us in congratulating Makenna Lilya on her Temporary Assignment to a Higher Class to a Behavioral Health Program Coordinator position managing the Mental Health Quality Assurance Team!

Makenna joined BHS and the Mental Health (MH) Quality Assurance (QA) team in April 2023 as a UR/QI Specialist and was quickly promoted to a UR/QI Supervisor in October 2023. Over this time, Makenna has contributed to the implementation of various DHCS initiatives within BHS, ensuring knowledge of the requirements and regulations to support compliance while working collaboratively to update processes for monitoring the quality of services provided. She has served as the lead supervisor over Critical Incident Reporting and played an integral role in developing streamlined processes and sharing information with the System of Care through the regular Quality Improvement Program (QIP) meetings. Makenna is excited to step into the Behavioral Health Program Coordinator role, building on her commitment to quality and collaboration!

Outside of work, Makenna enjoys spending time with her husband restoring their 1970 VW bus, going to the San Diego Zoo, relaxing on the beach and spending time outdoors. Gallup Strengths: Achiever, Strategic, Relator, Activator, Input

Please join us in congratulating Jill Michalski on her new Behavioral Health Program Coordinator role in the Health Plan Operations Unit as an EHR Clinical SME!

Jill started her career with BHS on the Mental Health (MH) Quality Assurance (QA) team as a UR/QI Specialist in 2018. She advanced within the MH QA team, promoting to UR/QI Supervisor in 2021 and then into the Behavioral Health Program Coordinator role in 2023, managing the MH QA Team. During this time, she has been able to use her knowledge to support QA and the BHS System of Care through significant CalAIM/Medical Transformation requirements including documentation reform, CPT procedure code implementation, payment reform, and the Electronic Health Record transition to SmartCare. Jill has worked to build strong relationships with providers and BHS teams ensuring effective communication, collaboration and alignment to meet County and DHCS requirements and goals, and this foundation will carry forward in her new role!

In her free time outside of work, Jill enjoys cooking elaborate dinners for friends, spending time with her husband and dog, and travel and food adventures. Gallup Strengths: Strategic, Individualization, Adaptability, Intellection, Input

QI Matters Frequently Asked Questions - July

Q: What should we do if an employee leaves our program before the TADT is closed – is it the expectation that the PM take over all TADTs if someone leaves before the TADTs are closed/completed?

A: A TADT note can be signed by someone else (other than the original author if you pull up the note that is in progress and change the “Author” from the original to the new name. This will allow the new author to complete the timely access record and removes the note from the original author’s dashboard as well and is a solution if the original author is not available. The TADT is not a clinical document, it does not have an impact if the original author is changed, so long as the document/data is entered and completed.

Q: How should our program address the situation when a referral changes from one of our program locations to another. For example, a “requested” program assignment is created for "Central Program" and the TADT is associated with "Program Central". However, by the time the intake/enrollment occurs, the referral has been

QA MH - UP TO THE MINUTE July 2025

shifted to "Program South". Should we reach out to the MIS Support Desk to have the requested program assignment and the TADT "moved" in SmartCare from "Program Central" to "Program South"?

A: We would still need both programs to report to the TADT on the referral. The program needs to remember that DHCS does not recognize their separate locations as connected in anyway, so while you (program) see it as the client "moved", the state sees it as the client was referred out to a new program. They are treated as different programs/facilities, so the expectation is that reporting/data is happening for both. So "Program Central" should be documenting the initial contact and a disposition that closes the record indicating no appointment scheduled because the client was referred to another program. Then "Program South" starts a brand-new record for the client and uses the initial contact date for when *they* received the "referral" for this client vs using the date the client contacted the central location.

Q4 MH PIPs – Network and Quality Planning/Population Health

Access Times PIP

Improve timely access from first contact from any referral source to first offered appointment for any specialty mental health service (SMHS).

The University of California at San Diego (UCSD) Child and Adolescent Services Research Center (CASRC) team submitted a draft for the PIP design submission to Behavioral Health Services (BHS) for review. The Spring 2025 Youth Services Survey (YSS) was disseminated in May, which included questions regarding timely access. UCSD gathered responses from the Timely Access Questionnaire for community mental health providers in San Diego County, which will be used as the interventions are developed for this PIP.

Follow-Up After Emergency Department Visit for Mental Illness (FUM)

Increase the percentage of adult, Medi-Cal-eligible beneficiaries from pilot emergency departments (EDs) who connect to Mental Health (MH) services within 7 and 30 days after an ED visit by 5%.

The UCSD team submitted a draft for the PIP design submission to BHS for review. UCSD received the CalMHSA HEDIS rates for MY 2023 and MY 2024 to include as pre-baseline data for the PIP design report. The UCSD PIP team continues to attend the Healthy San Diego Behavioral Health Quality Improvement Workgroup with the goal of learning and sharing what each Health Plan is doing for the State-mandated PIP topics and interventions.

General Updates

Important Update: New Workflow for Payment Recovery Forms

There has been a change in the workflow for submitting Payment Recovery Forms (PRFs) when disallowances are identified. Program should continue to complete a PRF when a service has been paid but is later determined to be non-billable. Effective immediately, instead of sending the PRF directly to the Billing Unit, please submit it to QI Matters. The assigned QI Specialist for your program will review the disallowances and provide support if needed. If no support is required, the Specialist will forward the PRF to the Billing Unit on your behalf. If there is potential for the service to be billed appropriately, the QA Specialist will work with your team to help secure all available funding.

Additionally, please use the new [PRF form](#) on Optum under the Billing tab. A tip sheet on how to use the form is on the second tab of the PRF excel form.

DUO for CCBH- Update to the Support Team

We are excited to report that a new team will be taking over DUO technical support:

Call the Optum Helpdesk at 800-834-3792 if you need assistance with your account. Support is available seven days a week (including holidays) from 0430 to 2300. For account creation, the process remains the same: submit an ARF to the MIS team at BHS_EHRAccessRequest.HHSA@sdcounty.ca.gov.

Remember, DUO is the multi-factor authentication method (MFA) required for accessing historical patient data in CCBH.

Children's Health Insurance Program (CHIP) Coverage

Effective July 1, 2025, each Medi-Cal behavioral health delivery system must include information in the Provider Directory referencing whether the provider is accepting new Children's Health Insurance Program (CHIP) members. In California, CHIP is fully integrated into Medi-Cal and provides coverage for children under 19 and qualifying pregnant individuals. CHIP populations receive specialty mental health services from their county's MHP, and substance use disorder services from their county's DMC or DMC-ODS plan. If your program accepts Medi-Cal and provides services to any of the identified qualifying members, you also accept CHIP. Additional guidance will be forthcoming regarding program status for Provider Directory information.

Client Enrollment Reminder within SmartCare

Programs should be enrolling clients within SmartCare via the 'Client Programs' screen prior to providing ongoing services. There has been a trend of clients found who are receiving ongoing care while not being 'Enrolled' into a program and under status of 'Requested'. Programs are encouraged

to run their Program Assignment report and ensure that any clients receiving care are in “Enrolled” status.

The CalMHSA instructional link for client enrollment can be found here: [How to Add the Client to Your Program - 2023 CalMHSA](#)

SmartCare Changes to Client Information (Client) Screen- “Sex Parameter for Clinical Use”

The Client Information (Client) Screen has been updated to include a new field “Sex Parameter for Clinical Use,” and the “Sex” field has been changed to “Sex Assigned at Birth.”

- Sex Assigned At Birth – this is related to Medi-Cal Billing:
 - Male
 - Female
- Sex Parameter for Clinical Use – not billing related, clinical only:
 - Male
 - Female
 - Non-binary
 - Other
 - Choose not to disclose
 - Unknown

A provider would indicate **“sex parameter for clinical use”** to clarify that they are using a person’s **biological sex** (male or female) — **not** their gender identity — for medical decisions.

Why this matters:

- Many clinical decisions (like lab test reference ranges, medication dosing, and risk assessments) are based on **biological sex differences**.
- For example, males and females may process medications differently or have different normal hormone levels.

When this is especially important:

- **For transgender or non-binary patients**, their gender identity might not match their biological sex.
- By marking **“sex parameter for clinical use,”** the provider is noting that clinical care decisions are based on **biology**, even if the person identifies differently.

Example:

If a non-binary patient was assigned female at birth, and hasn’t had hormone therapy or surgery, the provider may still use **female-based medical guidelines**—but also respect the patient’s gender identity in communication and overall care.

- Mental health symptoms are often influenced by both biology and gendered social experience. A non-binary person might not follow typical male or female symptom patterns, so clinicians should:
 - Take an individualized approach
 - Ask about lived experience, social stressors, and identity-related challenges
- Non-binary individuals face **unique mental health risks**, such as:
 - Higher rates of anxiety, depression, and suicidal ideation
 - Discrimination, misgendering, or lack of access to affirming care

QA MH - UP TO THE MINUTE August 2025

It helps ensure accurate, safe medical care while also acknowledging that sex and gender are not always the same.

DHCS Fee Waivers for Peer Support Specialist Certification Renewals and Specialization Training

CalMHSA, in partnership with DHCS, is offering fee waivers to support the expansion of the Peer Workforce. Opportunities are available through Sept. 15, 2025, or until all fee waivers have been distributed.

- Trainings in Areas of Specialization
 - 1,000 fee waivers available for training in one or more areas of specialization for Certified PSS
 - Register for training with a CalMHSA-approved training agency. CalMHSA will submit information for individuals who are registered for eligible specialized trainings. Waivers are distributed on a first-come, first-served basis.

Involuntary ECT Review Committee Physician Appointment Requests – Updated Process and New Form

The process for adding a physician to an Involuntary ECT (Electroconvulsive Treatment) Review Committee has recently been updated as described in the ECT Section of the Inpatient Operations Handbook starting on page 13. Requests are to be submitted to the BHS ECT Lead via email (BHSContaktUs.HHSA@sdcounty.ca.gov) and shall include the physician's CV and a completed Involuntary ECT Review Committee Physician Appointment Request form (Appendix G). This new form is also available on the Optum website under SMH & DMC-ODS Health Plans on the MH forms tab.

SmartCare Group Service Details Screen Changes

The Group Service Details screen has been updated to improve the user interface and visibility when completing group service documentation. This change went into effect on 7/28/25.

- Group Details tab has been divided into two sub-tabs
 - Group details – includes group name, location, date, status, place of service, EBP and staff/group facilitator(s)
 - Services – includes client service level information

The top screenshot shows the 'Group Service Detail' screen with the 'Group Details' tab selected. The 'Group' field is set to 'Test IS clinician', 'Location' is 'AOT Hospital Visit', 'Date' is '06/09/2025', and 'Status' is 'Show'. A 'Group Comment' field contains text about a practice lesson. The bottom screenshot shows the same screen with the 'Services' sub-tab selected. On the left is a 'List of Clients' with a search bar and a list of client names and IDs. The 'Test, DFA (2104860)' client is highlighted. On the right is the 'Service Information' form, which includes fields for Procedure, Start, Status, Cancel Reason, Program, Clinician, Attending, Mode Of Delivery, Billable, Transportation Service, Interpreter Services Needed, Travel Time, Face to Face Time, Documentation Time, and a Telehealth Statement section. A table of 'Warnings and Errors' is also visible on the right side of the form.

ARF Update

- The license should be renewed prior to expiration date. Once renewed, an email must be sent to bhs_ehraccessrequest.hhsa@sdcounty.ca.gov to have the staff's SmartCare account updated. ARF submission is not required.
- An ARF must be submitted for all staff who change licenses.
- If license has changed, taxonomy should be added to the NPI registry, but previous taxonomy should not be removed to avoid billing issues.

Program Integrity (PI) & Reporting is managed by Dolores Madrid-Arroyo.

Contact: Dolores.Madrid@sdcounty.ca.gov or call (619) 559-6453.

Program Integrity Items:

At discharge, the client must not be deactivated from SmartCare. Deactivating a client makes them non-searchable and can potentially cause duplicate client entries.

QI Matters Frequently Asked Questions - August

Q: Our large program has multiple provider types working with clients (housing specialist, MHRS, therapist, psychiatrist, etc.) Does a Care Plan need to be updated for each role?

A: Providers are expected to indicate their next steps and relevant care planning in documentation. Care Plans should include treatment goals cohesively connected to the diagnosis, mental health functioning, and must be reviewed each time a service note is completed and/or updated as client needs change, issues are resolved, etc. It is recommended that when multiple providers are working with clients, treatment team roles are clarified by associating their specific interventions, so it is evident in documentation who is updating which parts of a Care Plan. Helpful resources for Care Planning documentation are [Treatment Plans and Care Planning - 2023 CalMHSA](#) and [BHIN 23-068 Documentation Requirements for SMH DMC and DMC-ODS Services.pdf](#)

Q: How would a program bill the service if a set of siblings were the only clients to show up to a group?

A: In this scenario, you could select a family therapy or rehabilitation procedure code, depending on which service applies. You may reference the Billing SMHS for Sibling Sets [guidelines](#) on the Optum under the [MH Resources – References tab](#).

Q: Our program is still having confusion between the Critical Incident vs. Non Critical incident reporting processes. What is the best information source?

A: The **OPOH section G.19 – 26** is the most comprehensive guide [TABLE OF CONTENTS](#). Additionally, the Incident Report tab on the Optum site includes templates and tip sheets for easy desktop referencing. [SMH & DMC-ODS Health Plans](#)
