CONFIDENTIALITY

HIPAA regulations mandate that all client information be treated confidentially.

Access to CCBH is based on your position and your job classification. You will have the access you need to complete your job duties. This can include access to clients in your Unit/SubUnit or may include full client look up. Remember – with more access comes greater responsibility regarding confidentiality!

You are not to share passwords with other staff. The Summary of Policy you signed before receiving your access to CCBH included your agreement to this directive. You are still responsible if someone with whom you have shared your password violates confidentiality!

The MIS unit investigates any suspicions regarding sharing of passwords. Consequences are up to, and may include termination.

Do not open any active client charts unless instructed to do so, or if it is required to complete your job duties. “Surfing” clients is a blatant breach of confidentiality.

Remember you are personally and legally responsible for maintaining confidentiality. Take it seriously.

Do not leave your computer unlocked with client data on the screen for others to access or view while you are away from your desk. Lock your CCBH session before leaving your computer.

When printing, make sure you are printing to a confidential printer, and pick up your paperwork quickly. Leaving printed Protected Health Information (PHI) out is also a confidentiality violation.

Play it safe – keep in mind how you would want your own PHI handled!

CCBH SOFTWARE BASICS

- CCBH IS ACCESSED THROUGH CITRIX (Cerner):
Go to <https://cosdca.cernerworks.com>
(Save this to your favorites or create a shortcut for your desktop)
- “TAB TO TRAVEL”: Get in the habit of using your “Tab” key. Using the “Tab” assures that you are directed to all required fields and that the information you input is actually captured by the system.
- RIGHT CLICK: When there is no obvious way to add information into a field, right click in the space to view your options.
- FILTERS/RADIO BUTTONS: Check these first and make sure they are on “all” when searching the database.
- MAGNIFYING GLASS/ELLIPSES “BUTTONS”: When you see these at the end of a field, it means there is a “Search Screen” that you can pull up to find information for that field. You do not have to use them, but they are there if you need them.
- REQUIRED FIELDS are in red or blue: They must be filled-in to save and final approve information.
- OPTIONAL FIELDS are in white: Information may be added, but is not required to final approve the Assessment. ***Keep in mind – just because you have completed all the fields required to final approve the form, does not mean you have completed a thorough clinical assessment.*** Documentation standards have not changed.
- CLOSED FIELDS are in gray: Nothing can be added in these fields.
- CASE SENSITIVE:
 1. Passwords – if you receive an error message for “Invalid Password”, check to make sure you are using the appropriate upper and lower case letters when typing. After a third attempt with an invalid password, the system will lock your session and will require contacting the Optum Support Desk (1-800-834-3792) to unlock it.
 2. Table Searches – when searching within a table, be aware that descriptions or IDs are case sensitive. If you do not use the correct upper or upper and lower case entry, the search will not take you to the desired table value.

- **MULTIPLE WAYS TO ACCESS INFORMATION:** In CCBH, it is easy to access the same information in multiple ways. We have included screenshots and directions in this document to guide you through the system.
- **LOCKING YOUR SESSION:** For security purposes, you must lock your session any time you step away from your computer. This packet explains the various ways to lock your session.

Note: Locking your session is best used for short times away from your computer. CCBH will log you out after 60 minutes. There is a chance of losing work that has not been final approved or saved if CCBH logs you off.

- **WHEN YOU GO BACK TO YOUR PROGRAM:** You are learning how to enter assessments in the “**SDC Train CCBH**” environment during this training, which is for **practice purposes only**. It is important to enter all of your assessment information in the “**SDC Live CCBH**” environment when you return to your program.
- For password resets/menu issues: Call the Optum Support Desk. You may also call if you need your “SDC Live CCBH” environment password or menu set up. Their contact information is:

Optum Support Desk
1-800-834-3792

Reminder:

Menu access is set according to job title/functions. The menus you have at your program may look different than menus shown in the screen shots in this packet.

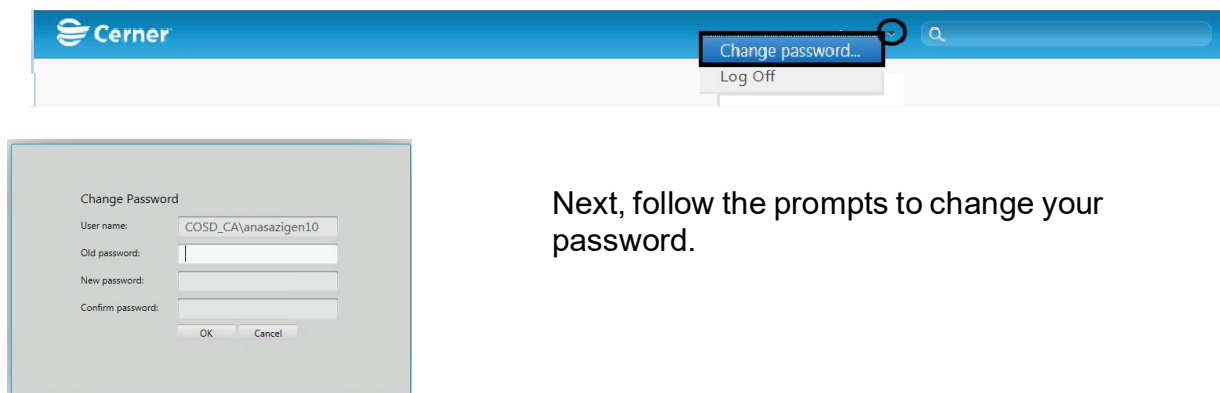

CCBH SPEAK

Assessment	In CCBH, anything that is not a Client Plan or a Progress Note is considered an “Assessment.” So, in CCBH Speak, forms such as the Discharge Summary, Outcome Forms, and Demographic Form are considered “Assessments” as well as the actual clinical assessment forms.
Assignment	Opening/Closing a client to a specific program (Unit/SubUnit/s) and to a specific server.
Clinician’s Homepage	A “page” that provides the Clinical servers at each open assignment to view client/s and client information for the identified caseload in one screen. This includes client look up, caseload listing, appointments, task/s to do, notifications, and other client information present in the EHR.
Collateral Server	Co-Staff providing a service (i.e. co-facilitator). Used when more than one staff is providing a service to the same client, on the same date and at the same time as server.
Demographic	A client is entered into the EHR by the completion and final approval of the demographic form. A client may not be opened to assignment/program unless the demographic form is entered, completed, and final approved.
Final Approve	Locks the completed assessment. Prevents editing/deletion of assessments.
SAI – Single Accountable Individual	Primary server identified based on primary unit program set up. This staff will be listed as the primary contact for the client in the system of care for purposes of coordination of care.
Scheduler	A program within the EHR that allows for scheduling of client service events and ongoing appointment/s. This information will populate to the Clinician’s Homepage once entered into the EHR through the Scheduler menu.
Service Code	Procedure Code. The code data entered into the EHR for the purpose of claiming a service activity.
Server	Staff providing a service activity.
Unit	The Physical Location of a program, or legal entity.
Sub-Unit	The specialized set of services offered within a Unit (i.e. population, funding sources, etc.).

PASSWORD CHANGES

Citrix (Cerner) Password

The first Citrix (Cerner) password you ever receive is considered a temporary password. For security reasons, you will be prompted to change your password on your first log in. To do so after the initial login, click “Change Password” when first logging in to Citrix (Cerner).

Next, follow the prompts to change your password.

CCBH Password

You are prompted by the system to change your CCBH password every 90 days. However, if you feel that someone has learned your password, for security reasons you should change it immediately. There are two ways to do this:

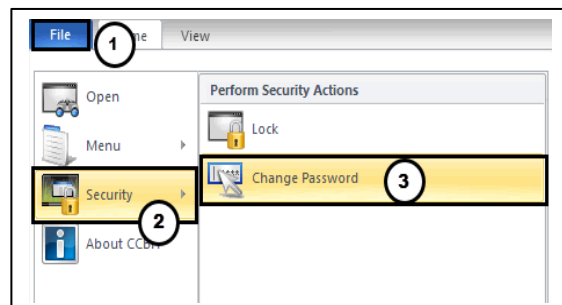

External View

From the External View, go to the “File” tab, then “Security” menu and select the “Change Password” option. Follow the prompts to change your password.

Clinician’s Homepage

From the Clinician’s Homepage, go to the ‘File Tab’. Select the “Security” menu, and then select the “Change Password” option. Follow the prompts to change your password.

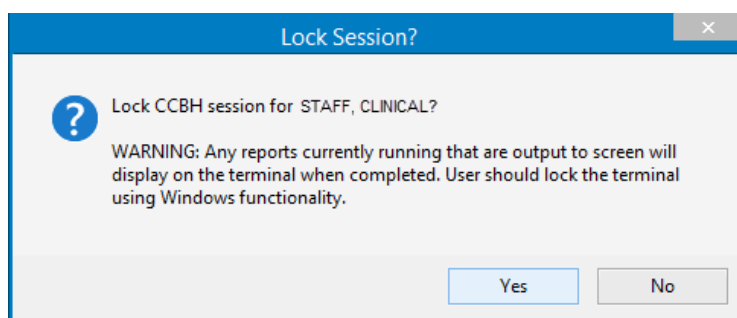

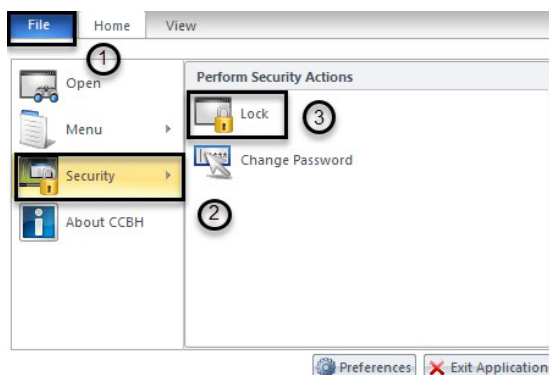

LOCK CCBH SESSION

For security reasons, the expectation is that you will lock your CCBH session any time you step away from your computer. There are two ways to do this.

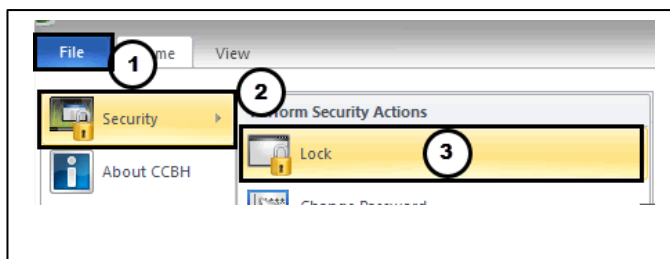

Clinician's Homepage

From the Clinician's Homepage, go to the "File Tab" and select the "Security" drop down menu, then select "Lock Session" button.

External View

From the External View, go to the "File" tab and select the "Security" drop down menu, then select the "Lock" option.

You will be prompted to enter your password to unlock the session.

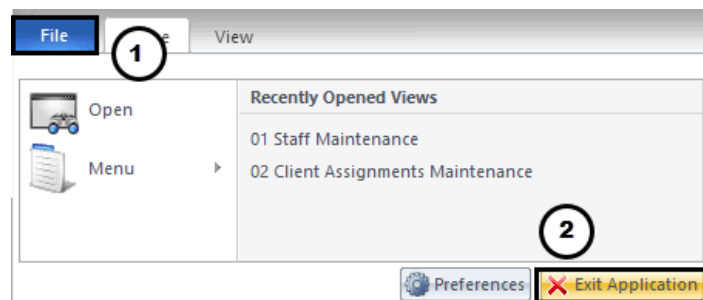

EXITING THE APPLICATION

EXITING CCBH: To make sure you do not accidentally create a “ghost session” and lock yourself out of accessing CCBH, you must exit in the following manner:

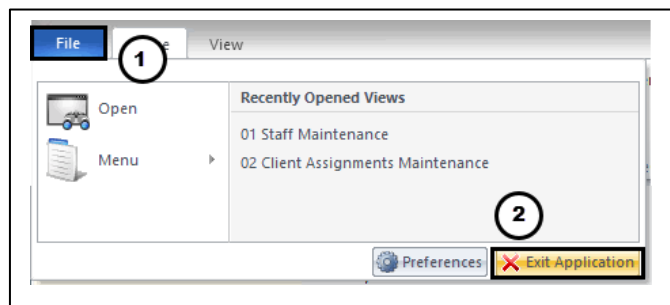

Clinician’s Homepage

1. Go to the “File Tab” menu in the top left-hand corner of your screen.
2. Select the “Exit Application” option.

External View

- Go to the “File” menu in the top left-hand corner of your screen.
- Select the “Exit Application” option.
- Repeat this step for any open external view window.

You risk being locked out of CCBH if you do not exit in the manner described above!

CLINICIAN'S HOMEPAGE TERMINOLOGY

Identifying Terms Used on the Clinician's Homepage

Clinician's Homepage:

The Clinician's Homepage is a real-time tool that provides up-to-the-minute client status at a glance.

File Tab:

The "File Tab" acts as the menu. It can be used to exit the application, set preferences, access the external view, or see recently opened views.

Tabs:

The "Tabs" listed below are displayed at the top of the Clinician's Homepage.

- There are four tabs: "File", "Home", "Client" and "View".

Note: The "Client" Tab will only be available if the "Client Panel" is set with a client name.

Ribbon:

- The "Ribbon" is an object that is comprised of various buttons.

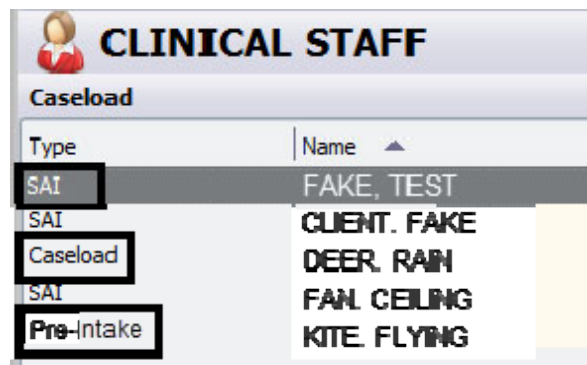

Buttons:

- The "Buttons" are individual selections that can be clicked on to perform various functions.

Staff Panel:

- The “Staff Panel” will have your name. The “Staff Panel” consists of three panes. The “Caseload” Pane, the “Scheduled Services” Pane, and the “Shortcuts” pane.

Type	Name
<input checked="" type="checkbox"/> SAI	FAKE, TEST
<input checked="" type="checkbox"/> SAI	CLIENT, FAKE
<input checked="" type="checkbox"/> Caseload	DEER, RAIN
<input checked="" type="checkbox"/> SAI	FAN, CEILING
<input checked="" type="checkbox"/> Pre-Intake	KITE, FLYING

- Clients will only display under the “Caseload” pane if they have been assigned to you. Admin staff are not able to carry a caseload.

- The “Scheduled Services” pane displays your scheduled service events for that individual day. Admin staff do not provide services.

- Any shortcuts set up in the External View will display under the “Shortcuts” pane. Shortcuts will not be set up during this training.

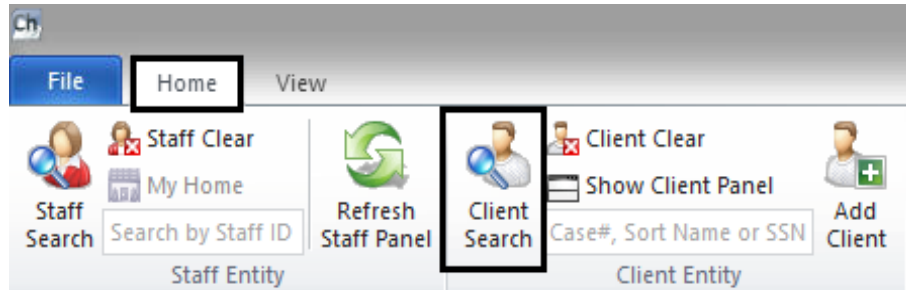

Client Panel:

- The “Client Panel” displays information about the client that you selected. The “Client Panel” consists of “Client Panes”. You may access the information contained in those panes by clicking on each pane. The information contained in these areas is pulled from assessments, or forms, in CCBH.

CLIENT SEARCH Clinician's Homepage

- Select the "Client Search" button

- The "Client Lookup" window will open

Click on the search button to perform a search for client records based on the criteria in the top section.

There are several different ways to search for a client from this window:

- If you have the client's case number, or Social Security number, you can simply enter it in the "Case#" or "SSN" field and select "Search".
- By "Sort Name": Enter the client's sort name in the LAST NAME, FIRST NAME format, then select the "Search" button. (The "Sort Name" is the client's name as formatted when first entered into the CCBH system):

Click on the search button to perform a search for client records based on the criteria in the top section.

Note: Double Clicking on the client's name will launch the Client Panel.

- If the Sort Name you entered is not in the system, you will receive the following stop message:

- This does not mean that the client is not in CCBH. Rather, you may not have entered the sort name exactly as it was formatted when the client's information was first entered into the CCBH system. For this reason, you should search by other criteria such as:

Note: Before beginning another type of search, select the "Clear" button to reset the search criteria.

- In client search, enter LAST NAME, FIRST NAME, date of birth (check spelling and in ALL CAPS).
- If client is found with that name, double check SSN.
 - Search by SSN.
 - Search by Alias.
- If match found, open the Demographic form on client and double check DOB, address, SSN.

- Check 3rd Party information to see if client has the same Medi-Cal (BIC, CIN) number.
 - If it is unclear which is the first name or the last name, enter the other position of names in Alias – e.g., Bubble Gum entered into CCI as GUM, BUBBLE may be entered into Alias as BUBBLE, GUM.

Note: When searching use all capital letters, these fields are case sensitive.

- You can now search by one or more of the other criteria fields (Last, First, DOB, Alias Last, First, Sex, Case Number). Select the “Search” button.

Click on the search button to perform a search for client records based on the criteria in the top section.

The scanning of a large number of Client records has been detected and could lock up the system for a substantial amount of time. Would you like to continue?

Additional Client Search Feature

- The “Thru” field, in conjunction with the “DOB” field allows you to search for clients within a particular date range. For example, if the DOB is approximately 3/10/1964 and you can enter 3/08/1964 in the “DOB” field and 3/12/1964 in the “Thru” field, all clients in the system who have that dates of birth in that date range will be displayed in the “Client Search Results” window.

*Note: If the exact DOB is known ~ enter it in the ‘DOB’ **and** ‘Thru’ fields to find clients born only on that date.*

Click on the search button to perform a search for client records based on the criteria in the top section.

RESTORE SYSTEM DEFAULTS

If the layout becomes distorted, or the panes have *disappeared*, select “Restore Panel Layout” (under the Layout and Filters button on the Home tab). This will restore the layout to what it was when you first logged in.

Select “Restore Panel Filters” (under the Layout and Filters button on the Home tab) to bring all the Filters back to their default settings, if desired.

NOTES

CLIENT FACE SHEET

The Client Face Sheet will allow users to view any entered information from the client's most recent final approved Safety Alert, Demographic Form, and Diagnosis Form. The Client Face Sheet displays the Primary Unit, SubUnit and SAI for the client. If the client information has not been entered on one of these forms, the corresponding information fields on the Face Sheet will be blank.

- After accessing a client, the Client Face Sheet can be viewed by clicking the “Face Sheet” pane in the client panel.

The screenshot shows a web application window titled "FAKE 2TEST" with a "Face Sheet" tab selected. The main content area displays "County of San Diego Mental Health Services" and "FACE SHEET". Under the "SAFETY ALERTS" section, there are radio buttons for "Allergies and Adverse Medication Reactions": No, Unknown/Not Reported, and Yes (selected). Below this is a text input field labeled "ALLERGIES AND MEDICATION REACTION ON BHAA". At the bottom, a navigation bar includes tabs: "Face Sh...", "Pre-Intake", "Assessm...", "Primary ...", "Primary ...", "Primary ...", "Current ...", "Progres...", "Authoriz...", "Primary ...", "Services", "Medical ...", and "Medicati...".

- The Client's Face Sheet cannot be edited from this view. To print click on the drop down arrow ▼ at the top right, and click “Print Face Sheet”.

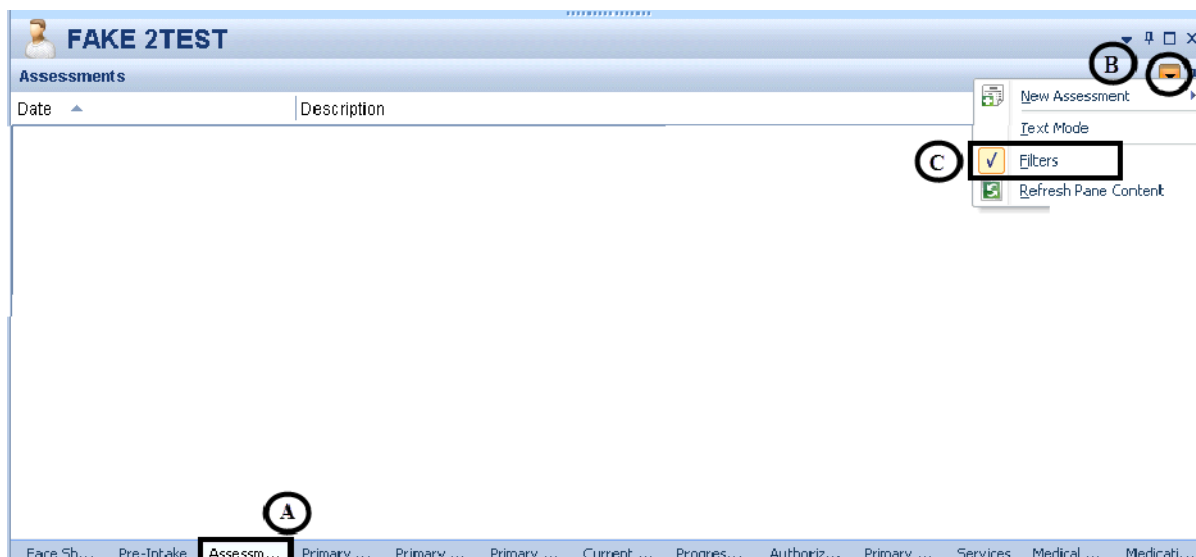

This screenshot is similar to the previous one but shows a dropdown menu open in the top right corner. The menu contains two options: "Refresh Pane Content" and "Print Face Sheet", with the latter highlighted by a red box. The rest of the interface, including the "SAFETY ALERTS" section and the navigation bar, remains the same.

FILTER SETTINGS

Modifying filter settings to display historical assessments

Each user may personalize the way filters display information in his or her Clinician's Homepage. Any time you do not see the desired information, the first step is to check the filters to assure the correct parameters are selected for your search.

- A. On the "Client Panel", click on the "Assessments" pane. The "Assessments" pane will open an expanded window.
- B. Click the drop down arrow  on the "Assessments" bar.
- C. The "New Assessment", "Filters", and "Refresh Pane Content" window will display. Click on the check mark  or on the word "Filters".

- D. The “Filters” window will display. There are three areas where you can make changes.
- E. Date: If a desired assessment is before the date listed, and is not displaying on the “Assessments” tab; you must adjust the date manually.
 - F. From the drop down menu, you may choose A: “Include Final Approved and non-Final Approved Assessments”, F: “Include Final Approved Assessments only” or N-Include non-Final Approved Assessments only”.
 - G. You may filter by “Assessments Signed By”, “Assessment Type”, and “Category of Treatment”.
 - H. You may also place a checkmark by the “Include Voided Assessments”, “Include Preferred Assessments only”, or the “Include the latest Assessment of each type only” choices given.

Filters in Clinician's Homepage:

Several panes located within the Client Panel contain "Filters". Below are some examples:

Assignments Pane Filters: *updates the Assignments Pane to display Opened and Closed Assignments.*

The screenshot shows the "Assignments Pane Filters" dialog box. It has a title bar with a close button. Below the title bar is a "Filters" tab. Under the tab are three icons: a refresh icon labeled "Refresh", a save icon labeled "Save and Close", and a close icon labeled "Close Panel". Below these icons are the labels "Actions" and "Close". A message box states: "Changes to the following filters will update the display of the Assignments Pane." Below this is a section titled "General Filters" containing a dropdown menu with the following options: "A - Include Open and Closed Assignments", "A - Include Open and Closed Assignments", "C - Include Closed Assignments Only", and "D - Include Open Assignments Only". At the bottom, a note states: "This filter does not apply when the Assignments Pane is collapsed".

Services Pane Filter(s): updates the display of the Services Pane. The date field filters for services on or after the date entered. Check boxes further filter that data, for particular service types or services by specified staff, for example.

The screenshot shows the "Service Pane Filters" dialog box. It has a title bar with a close button. Below the title bar is a "Filters" tab. Under the tab are three icons: a refresh icon labeled "Refresh", a save icon labeled "Save and Close", and a close icon labeled "Close Panel". Below these icons are the labels "Actions" and "Close". A message box states: "Changes to the following filters will update the display of the Services Pane." Below this is a section titled "Service Filters" containing a "Lookback Date" field with the value "6/2/2013". Below the date field are two checkboxes: "Include Crisis Services, Cancellations, and No Shows only" and "Include Services with the Selected Staff only". Below this is a section titled "Progress Note Filters" containing three dropdown menus with the following options: "A - Include Services with and without Progress Notes", "A - Include Services with Final Approved and Pending Progress Notes", and "A - Include Services with Planned and Unplanned Progress Notes". At the bottom, there is a "Client Plan Type" field.

VIEWING CLIENT ASSIGNMENTS

Clinician's Homepage

Client "Assignments" refer to where the client has received, or is currently receiving, services. In the "Clinician's Homepage" you can view the Opening/Closing dates when a client was assigned to a specific program (Unit/SubUnit/s) and to a specific server.

1. In the "Client Panel" click on the "Assignments" pane.
2. It displays all the assignments attached to the client.

NOTES

CORE CLIENT INFORMATION

Note: Before entering a new client, always search to ensure that the client is not already in the system. Refer to the “Client Search” tip sheet on the previous pages.

If you are sure that the client is not already in the system, click on the “Add Client” button in the “Client Lookup” window.

After you click on “Add Client”, the “Core Client Information Maintenance Panel” window will display.

Just start typing – **DO NOT** click into the Sort Name field. Doing so could add a space at the beginning of the field. If this happens, the client will not be found if searched for by Sort Name. Enter as much client information as you have into the CCI.

In the “Sort Name” field, enter the client’s name. Do not forget the comma and the space in between the last and first names. Verify that the spelling and format are correct, as this is how other staff members will be searching for the client’s name in the future.

Sort Name LAST, FIRST

-or-

Sort Name LAST, FIRST MIDDLE

Note: If a client’s name, date of birth, or social security is incorrect, fill out form BHS-025 and contact Medical Records.

- Do not enter a suffix (i.e. Jr., Sr., II, III)
- Do not enter punctuation, apostrophe (') or hyphen (-)
- Do not enter spaces (i.e. if the client has 2 last names, run them together)
- When names are hyphenated or have another prefix such as Super-Human, it is important to enter the names into the Alias section to help facilitate future searches – e.g., Awesome Super-Human should be entered as an alias as HUMAN, AWESOME and also as SUPER, AWESOME.
- Do not use non-English letters (i.e. ñ)
- Press the Tab key and the client’s Sort Name will populate the Last Name, First and Middle Name Fields

Sort Name LAST, FIRST MIDDLE Case Number (0 or blank for Auto Assign) 0
Last Name LAST First FIRST Middle Name MIDDLE

Enter the client’s DOB in the following format: MM/DD/YYYY.

DOB

10/01/2008

Note: For the remaining optional fields, enter the client’s information. The information will populate to the Demographics form.

Click on the “Save and Close” button.

When asked about assigning a case number to this client, **Always** select “Yes.”

The client’s name is now in the system as a new client.

Entering John and Jane Doe Clients:

When an unidentified client presents, use the following guidelines for entering the client into CCBH. *Note: Once the legal name is known, submit a BHS-025 with supporting documentation to medical records. The final page in this packet contains that information.*

For all programs (except ESU), enter:

Sort Name	DOE, JANE MM/DD/YY	Case Number (0 or blank for Auto Assign)	0				
Last Name	DOE	First	JANE	Middle Name	MM/DD/YY		
DOB	01/01/1901	Soc Sec #		Ethnicity		Sex	

-or-

Sort Name	DOE, JOHN MM/DD/YY	Case Number (0 or blank for Auto Assign)	0				
Last Name	DOE	First	JOHN	Middle Name	MM/DD/YY		
DOB	01/01/1901	Soc Sec #		Ethnicity		Sex	

MM/DD/YY = date of client admission/contact. The date will default into the “Middle Name” field. **Delete the numbers in the “Middle Name” field before saving the record.**

If the client’s date of birth is unknown and cannot be estimated, enter 01/01/1901.

For the ESU, enter:

Sort Name	DOE, ESU1 MM/DD/YY	Case Number (0 or blank for Auto Assign)	0				
Last Name	DOE	First	ESU1	Middle Name	MM/DD/YY		
DOB	01/01/1901	Soc Sec #		Ethnicity		Sex	

ESU1 = The first John/Jane DOE client of the day.

ESU2 = The second John/Jane DOE client of the day.

MM/DD/YY = date of client admission/contact. The date will default into the “Middle Name” field. **Delete the numbers in the “Middle Name” field before saving the record.**

If the client’s date of birth is unknown and cannot be estimated, enter 01/01/1901.

For John Doe’s, enter “M” as the sex, and for Jane Doe’s, enter “F” as the sex.

Entering Clients with Identical Sort Names:

If the above message appears when entering the Core Client Information (CCI), double check to ensure that the client is not already in the system. If the existing record is for a different client, adjust the client's sort name. This is accomplished by entering the new client's date of birth to the end of the client's name. Example:

Sort Name	LAST, FIRST MM/DD/YY	Case Number (0 or blank for Auto Assign)	0
Last Name	LAST	First	FIRST
		Middle Name	MM/DD/YY

The DOB will default into the "Middle Name" field. Delete the numbers in the "Middle Name" field, and enter the appropriate middle name/initial. However, **do not** change the "Sort Name" field. See the example below:

Sort Name	LAST, FIRST MM/DD/YY	Case Number (0 or blank for Auto Assign)	0
Last Name	LAST	First	FIRST
		Middle Name	MM/DD/YY

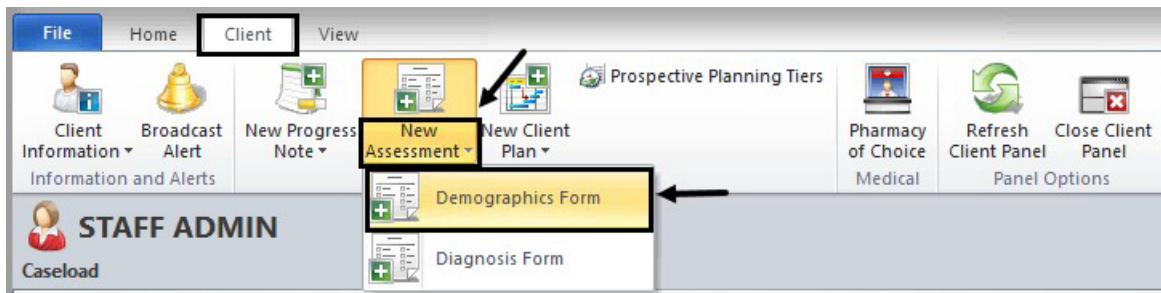

Sort Name	LAST, FIRST MM/DD/YY	Case Number (0 or blank for Auto Assign)	0
Last Name	LAST	First	FIRST
		Middle Name	MIDDLE

Special considerations:

- *When available, the client's middle name should always be entered.*
- *In the case of identical first and last names, the middle name may be all that is needed to differentiate among clients. If that is not enough, then the DOB is added to the end of the sort name field.*
- *When a date is added to the end of the sort name field, it appears in the middle name field. Make sure to remove it before moving forward.*

ADDING NEW ASSESSMENTS

From the “Client” tab, click the words “New Assessment”, and click on the assessment you wish to add.

Enter the date that the client gave this information to the staff. This is called the “Effective Date” on the paper form, and it is located in the top left hand corner. **Be mindful when entering this date, as it cannot be changed.** After you’ve entered the “Effective Date,” select “Save.”

City/State/Zip	LA MESA	CA	<input type="text" value="91941"/>	<input type="text"/>	County	San Diego

- **For Clients who are Homeless, Incarcerated, or Have No Reported Mailing Address:**

The physical address for a client who is **homeless** is entered with the word “homeless”, and a zip code.

Note: If you have additional information (i.e. - frequents Balboa Park), type it after the word “homeless” in the Physical Address field.

Physical Address	<input type="text" value="HOMELESS"/>					
City/State/Zip	SAN DIEGO	CA	<input type="text" value="92103"/>	<input type="text"/>	County	San Diego

In the zip code field, enter the zip code of the area where the client sleeps or frequents (if known).

If you do not know the zip code where the client frequents, enter the zip code of your program.

For individuals who are **incarcerated**, the jail’s address is entered as the physical address.

For individuals who have **no reporting address**, enter the address of the client’s primary subunit in both the physical and mailing address fields.

- **Phone**

If the paper demographic form does not include a home phone number, type “NONE”.

- **Religion**

If the paper demographic form lists a religion that is not included in the table, use your judgment to choose the most appropriate selection.

For example:

- 13 Atheist
- 12 No Religious Preference
- 98 Other
- 08 Other Christian
- 99 Unknown

ELECTRONIC SIGNATURE GUIDELINES

Signature Instructions on the Demographic Form.

The Demographic Form allows the form to be signed and final approved in one action.

1. Select “Final Approve,” located at the top of the window.

2. Enter your CCBH password when prompted.

Signature Instructions on the Diagnosis Form:

Validations		
Se...	Validation	Description

Crit...	Staff Signature R...	Sequence 3: Staff Entering Information

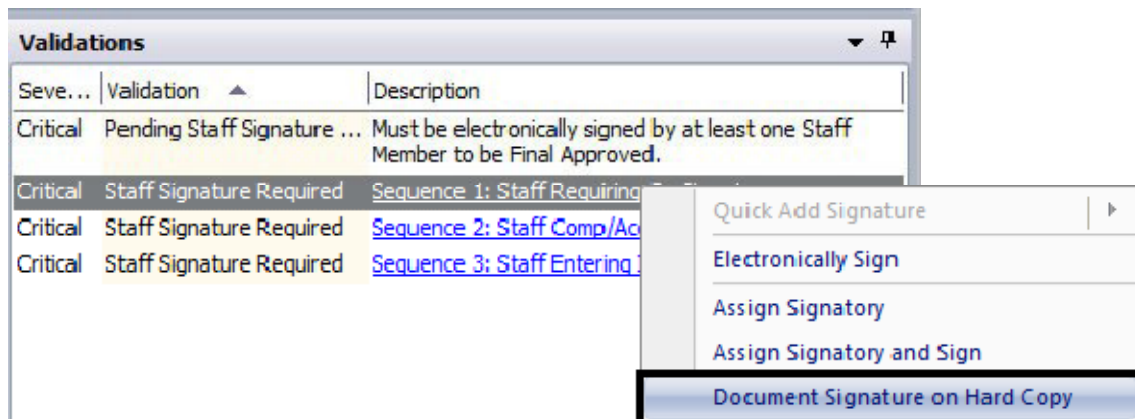

Signatures Validations

There are three credential restricted signature lines located in the “Validations” pane of the Diagnosis Form.

Support staff entering information on behalf of others, from a hard copy, will address the signatures as they are listed on the hard copy.

Sequence 1:**If the hard copy is signed by a staff that required a co-signature:**

1. Sequence 1 (Staff Requiring a Co-Signature) left click and select "Document Signature on Hard Copy."

2. Enter the staff's CCBH ID number. Make sure to adjust the date to match the hard copy. Select "OK."

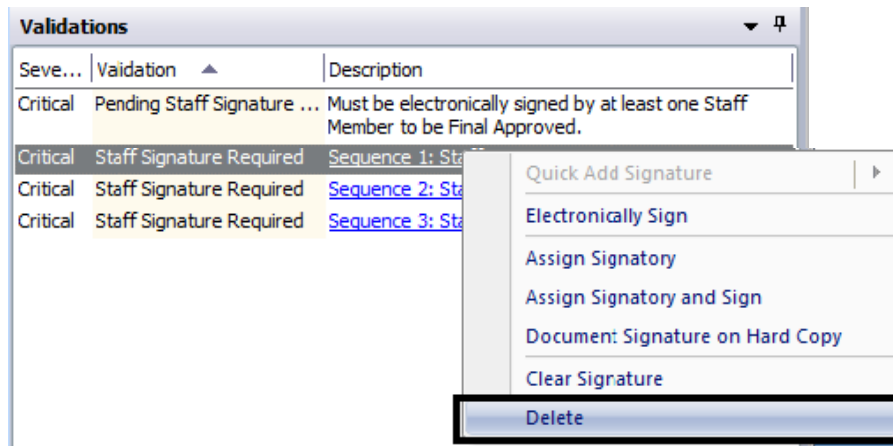

3. Enter your CCBH password.

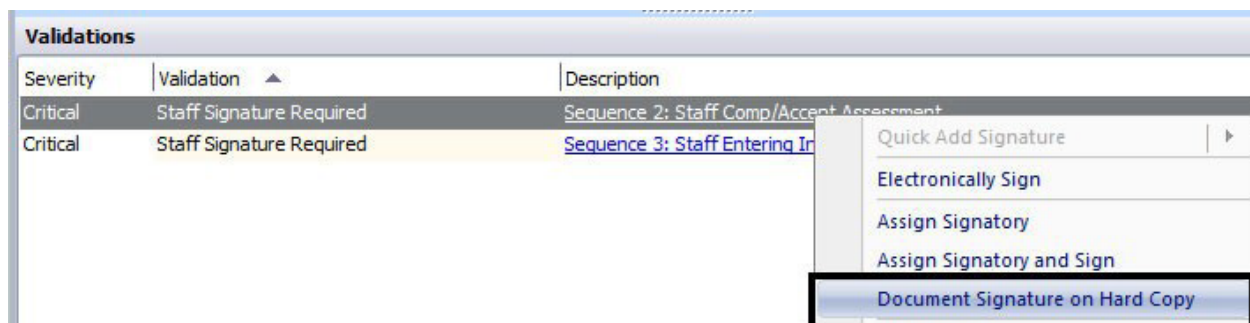

If the hard copy is not signed by a staff that required a co-signature:

1. Sequence 1 (Staff Requiring a Co-Signature) left click and select "Delete."

Sequence 2:

1. Sequence 2 (Staff Comp/Accept Assessment) left click and select "Document Signature on Hard Copy."

2. Enter the staff's CCBH ID number. Make sure to adjust the date to match the hard copy. Select "OK."

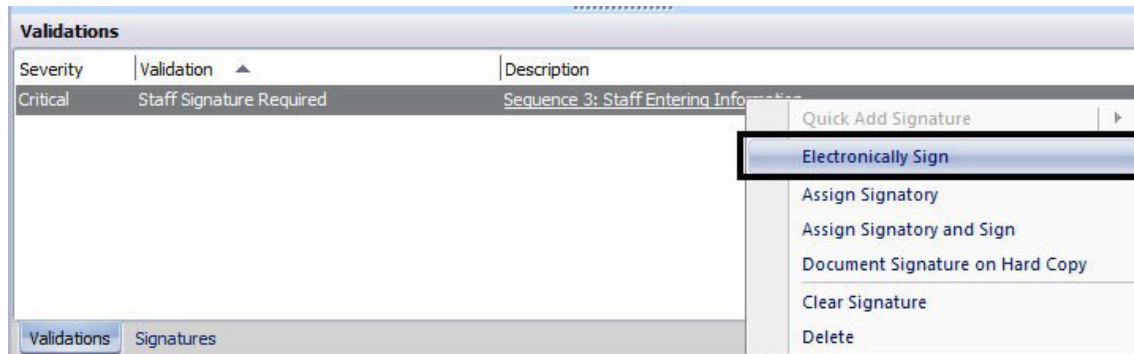

3. Enter your CCBH password.

Sequence 3:

1. Sequence 3 (Staff Entering Information) left click and select “Electronically Sign.”

2. Enter your CCBH password.

3. Select “Final Approve” located at the top of the window.

VIEWING ASSESSMENTS

Saved forms:

- Are “saved” but not final approved.
- Can be edited or deleted by anyone who has access to that client’s forms.
- Will hold up the work flow as they prevent adding another form in which any fields are shared.

Lock it down by Final Approving to protect your work!!

How to open a saved assessment:

- Select a client and open the “Client Panel”. Next, click the “Assessments” pane.
- A list of assessments will display. The assessment that is not final approved will not have a check under the Final Approved status (F/A).
- Double click the assessment. The selected assessment will open for data entry and completion.

NOTES

Client Categories Maintenance

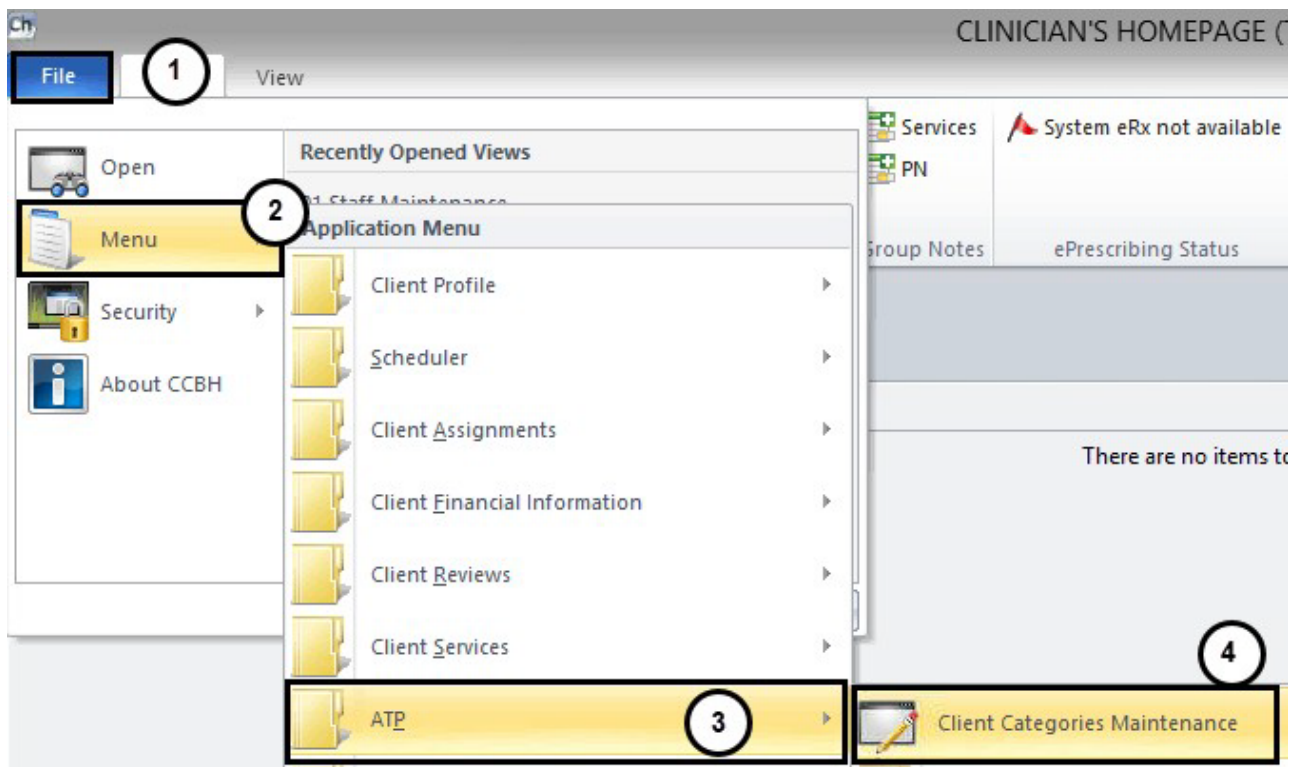

Entering Client Categories Maintenance:

Once the program has confirmed that a client belongs in one of the client categories in CCBH, programs must make the appropriate designation. There is a brief glossary attached about each category.

This is done through the “Client Categories Maintenance” screen.

Once the client’s name has been selected from the CHP (and the Client Panel is open), follow these steps:

1. From the Clinician’s Homepage (CHP), go to the “File Tab”, click on “Menu”, then click “ATP”, then select “Client Categories Maintenance”.

- The “Client Categories Maintenance” window will launch, with the name of client you selected on your CHP pre-populated in the “Client” field. (If you did not select a client prior to this step, simply enter the client number in this field and select “Tab” to populate the client’s name).

Client Category Maintenance Glossary

AB109

A funding source for clients that are low risk offenders released from State custody to the County of San Diego for supervision and services. Alcohol, Drug & Mental Health services at various programs are provided to those that qualify for them. The goal is to provide supportive and rehabilitative services to these individuals to help them meet their needs and stay out of the justice system.

“AB109 Funded” are those programs that have a contract with the County to provide services to this population, and the “AB109 Non-Funded” are programs that an AB109 designated client may go to if the funded programs are full and impacted, but the program is not receiving contract funding for the services. The “Funded” programs are: CRF HEARTLAND CENTER, CRF MARIA SARDINAS WELLNESS & RECOVERY, EXODUS CENTRAL, and TELECARE PROPS.

Assertive Community Treatment (ACT)

ACT Services are provided in a multi-disciplinary team-based model of service that uses a comprehensive team approach and provides treatment 24 hours a day, 7 days a week, 365-days a year. The services are targeted for **homeless** persons with a severe mental illness who may have a co-occurring disorder, are unconnected to outpatient services, may be referred by the justice system, have multiple major areas of impairment, have more than one long term care episode, and multiple ER and acute care hospitalizations and justice related episodes.

The ACT program provides **integrated** mental health and medication services, rehabilitation and recovery services, intensive case management and have a staff-to-client ratio of approximately 1:10. Clients are typically provided services in person at a minimum of four (4) times per week to meet with the client’s clinical needs and meet ACT fidelity rating. Services may be provided on a much more frequent basis, depending on client need.

ACT Strength-Based Case Management (SBCM)

Strengths-Based Case Management services are delivered through BHS contracted service. Programs assist clients with severe mental illness who may have a co-occurring disorder to **access** needed mental health, medical, educational, social, prevocational, vocational, housing supports and rehabilitative or other community services. The service activities may include, but are not limited to case management, care coordination, referral and linkage to needed services; monitoring services delivery to ensure beneficiary access to services and the services delivery system, monitoring of the client’s progress, and plan development

AOT Court Ordered

Assisted Outpatient Treatment, also known as Laura's Law, is a process by which the court, after a thorough investigation, orders an individual into an appropriate level of treatment. Individuals who are ordered into treatment are required to meet 9 criteria under Laura's Law with the primary deciding clinical factor being client is "substantially deteriorating." As part of the petition process, the licensed mental health clinician must prove to the court via an AOT evaluation that this level of treatment is the least restrictive level of treatment and, if not ordered, may result in the decompensation of the individual. The treatment offered in this category is the same level of treatment as an Assertive Community Treatment model.

AOT Voluntary

Similar to AOT Court Ordered, the individual is required to meet nine criteria under Laura's law with the primary deciding clinical factor being client is "substantially deteriorating." In this category, however, the client has not been court ordered into treatment. Though the client has met the definition for Laura's Law and a licensed mental health clinician has conducted an AOT evaluation, the client has willingly agreed to participate in the AOT program and avoid the court process. The treatment offered in this category is the same level of treatment, an Assertive Community Treatment model, offered to individuals in the AOT Court Ordered category.

Augmented Services Programs (ASP)

Strive to enhance and improve client functioning through augmentation of basic Board and Care (B & C) services to specific individuals living in specific B & C facilities with which the County has an ASP contract. Emphasis is on developing client strengths, symptom management, and client self-sufficiency. Priority for ASP services is given to those people in most need of additional services. Any BHS funded case management services program may refer to ASPs.

Emergency/Transitional Shelter Bed

The goal of ETSB is to provide short term housing assistance to individuals connected to the respective clinic while stable income is sought. Emphasis is on securing stable income, symptom management, and client self-sufficiency. Priority for ETSB services is given to those people with a pending SSI claim.

BHS Regional Clinics (North Central, East County, North Inland, and North Coastal) are the designated locations for referrals to the Emergency & Transitional Shelter Bed (ETSB), through the respective clinic Homeless Outreach Worker (HOW).

Katie A.

A shorthand way of referring to the settlement agreement for a class action lawsuit brought against the County of Los Angeles and the State of California. The result is that

specific collaboration between County Behavioral Health Systems and Children's Welfare Services is mandated so that certain children in both systems of care are guaranteed to receive intensive services to address their needs of safety, permanency and well-being. It is for Children's programs only. In San Diego County, we refer to Katie A. as Pathways to Well-Being or the acronym **PWB**, so you may hear this language in your program. The class action lawsuit settlement defined members of the class and members of the subclass. These are legal terms that spell out what criteria need to be met in order to receive the specialty mental health services that the settlement defines.

A clinician in your program will give you a form that says if the client meets criteria for Katie A Class or Subclass. This is the information you will put into Client Categories Maintenance. There have been several trainings on PWB, so if you are unfamiliar with this and the services provided (and you work in the Children's System of Care) talk to your program manager for more specific information.

Parolee

On a regular basis, individuals are discharged on parole from California State penal institutions. In many instances, these persons are in need of mental health services. Parolees who fall under the Forensic Conditional Release Program (CONREP) will be provided services in accordance with the current contract between the California Department of Health Care Services and the County of San Diego. Parolees who are Medi-Cal beneficiaries and who meet specialty mental health medical necessity requirements, as specified in WIC 14184.402(A), 14059.5 and Section 1396D(5) of Title 42 of the United States Code, will be provided appropriate Medi-Cal covered mental health services. Due to the passage of SB 389, MHSA funds may be used to provide services to persons who meet existing eligibility criteria for MHSA-funded programs and who are participating in a pre-sentencing or post-sentencing diversion program, to provide services to persons who are on parole, probation, PRCS, or mandatory supervision.
